Fran Hsu

Pittsburgh, PA | (412) 853-1832 | francfhsu@gmail.com | github.com/Chia-Fan | www.linkedin.com/in/chia-fan-hsu/

Data Analyst with 5 years of consulting experience using Python, SQL, and BI tools to automate reporting, analyze operational data, and support business decisions. Reduced manual reporting effort by 80% and led cross-functional analytics projects and communicated findings to diverse stakeholders.

Education

University of Pittsburgh Expected Graduation: May 2027
M.S. in Information Science, GPA: 4.0 Pittsburgh, PA
- Relevant Courses: Database Management, Machine Learning, Social Computing

National Cheng Kung University Sep 2016 – Jun 2018
M.S. in Transportation and Communication Management Science, GPA: 3.69 Tainan, Taiwan
- Intelligent Transportation Systems (ITS) Lab

Work Experience

University of Pittsburgh, Joseph M. Katz Graduate School of Business Aug 2026 – Present
Engagement Manager, Consulting Field Project — PITT OHIO / LogiFlow
- Lead a 5-person consulting team assessing growth opportunities for a customizable transportation management system (TMS), identifying target markets beyond its industry-concentrated customer base
- Identified 3 priority customer segments through analysis of historical customer data, market sizing (TAM/SAM/SOM), and benchmarking of 15 competitors to inform TMS growth strategy

GEOINT-ISAC (Geospatial Intelligence Information Sharing and Analysis Center) May 2026 – Aug 2026
Data & Intelligence Intern
- Used Python and GeoPandas to process climate-risk datasets, validate coordinates across 6 U.S. military installations, and prepare climate projections for GIS-based risk assessment
- Co-led an 18-person emergency-resource data team and authored a white paper chapter analyzing international extreme-weather risks

The Education Partnership, iServe Program Sep 2025 – Dec 2025
Data Analyst Intern (Volunteer)
- Analyzed Salesforce–NetSuite integration gaps and business requirements, recommending IT solutions and presenting findings to technical and non-technical stakeholders

THI Consultants, Inc. Jul 2020 – Jul 2025
Planner, Traffic Engineering and Data Analytics
- Led the TIA Robot project to automate data reporting from open government APIs, reducing manual reporting effort by 80% through dashboards, auto-generated charts, and summaries
- Applied established forecasting methods to estimate cargo volumes across Taiwan's major ports, incorporating historical cargo data, population growth, and economic indicators to support long-term infrastructure planning
- Led the development of a data-driven traffic safety system, coordinating a cross-functional data team and government stakeholders to support monthly data updates and data-driven decision-making
- Guided 11 of 22 local governments in adopting crash-mapping dashboards and safety management systems, strengthening local governance capacity in proactive traffic safety

Selected Projects

SmartCart — Grocery Price Comparison Web Application 2025 – 2026
- Designed a normalized 15-table MySQL database with indexes, transactions, functions, and triggers to support product matching, price history, and spending analytics
- Developed Python data pipelines to clean and standardize product information, resolving inconsistent units across retailers to enable accurate unit-price comparisons

Skills

- **Programming & Databases:** Python (Pandas, GeoPandas, Flask), SQL, MySQL, R
- **Analytics & BI:** Excel, Tableau, Power BI, Exploratory Data Analysis (EDA), Statistical Analysis, Forecasting
- **Data Preparation & Automation:** Data Cleaning, Data Validation, Data Pipelines, API Integration, Reporting Automation
